

Dear Parents

We are now only one year away from your child's final GCSE exams. Our past students have always told us that one of the most effective ways of revising is using published revision guides and workbooks. Unfortunately, the cost of these guides is increasing every year and our school budget is shrinking. Rather than asking you to go out and buy all the books for your child's GCSE subjects, we have purchased them for you but we would be grateful if you would make a contribution to the costs.

The total cost of a pupil set of books is about £75; however, all we are asking for is a £20 voluntary contribution to that cost. Your child will then receive a full set of revision guides and workbooks for all of their GCSE subjects. All you have to do is circle the subjects that your child studies on the attached sheet and then return it to our finance department with a payment of £20. Your child will then receive a receipt that they can take to each department and they will be issued with their revision guides and workbooks.

If you are paying by cheque can you please make the check payable to Shaw Education Trust.

We thank you for your support.
